## Introduction:

We introduce to you MicroDot Softwares (MDS) as a global software solution provider involved in the business of "Business Analysis and IT consultancy". MDS has a successful track record for delivering on time, within budget, state-of-the-art IT solutions to a broad range of global client. Company has excellent practical hands-on experience in database related business applications, MS SQL server, MS-Access, Visual FoxPro, Visual Basic, HTML, DHTML, Visual Basic .Net, ASP .Net and other advanced technology. Our customer centric focus and whole hearted dedication of team member has made us most trusted and dependable IT consultant in this region. Our reputed client list includes.

We provide solutions for a dynamic environment where business and technology strategies converge. Our approach focuses on new ways of business combining IT innovation and adoption while also leveraging an organization's current IT assets. We work with large global corporations and new generation technology companies - to build new products or services and to implement prudent business and technology strategies in today's dynamic digital environment

## Evolution and growth:

Established in early 2005, MDS differed from most outsourcing / IT company by focusing exclusively on software development and customer base. This focus has allowed the company to innovate on the below fronts:

- 1) Services aligned with the entire software development life cycle.
- 2) Reusable assets and frameworks to accelerate development process.
- 3) Value focused Business Models.

We deliver services across all stages of software development life cycle, which enables us to work with a wide range of customers and allow us to develop, enhance and deploy our customers software projects. MDS has delivered more than 50 software projects within the span of 5 years.

Long Marathon of many years of MDS has carved versatile dimensions, delivering wonders for many sectors.

## Verticals:

MicroDot Softwares covers various sectors / industries like:
